Remember to wash hands before handling food.

Demonstrate proper hand washing techniques to children and encourage them to wash hands before meals.

Nutrition Products Limited in its continuing mandate to ***“produce and distribute a nutritious meal to designated school children at the lowest possible cost utilizing local resources whenever possible,”*** on time, on a daily basis has implemented a Customer Service Drive geared towards working closely with all stakeholders particularly school officials, to ensure that the School Feeding Programme (SFP) operates at the highest level of efficiency and effectiveness.

Whilst we will be visiting randomly selected schools island-wide to make presentations, and to personally assess how best we may enhance the School Feeding Program experience, we invite you to call the Customer Care Department if you would like for us to visit your school.

As we strive to maintain the product quality and introduce more choices, we welcome your feedback on the service, and products that we provide.
